

Flickr on U-verse TV

Complex User Flows - Flickr Account Links

11/5/10

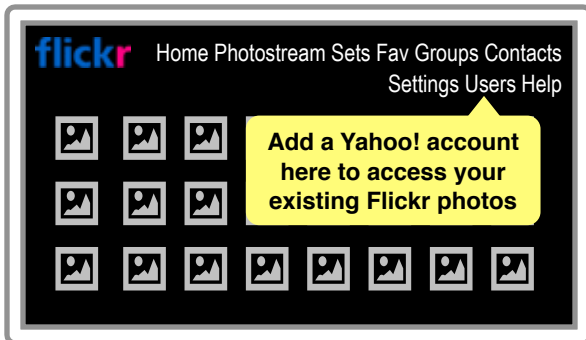

Link additional Flickr account

1. Standard Flickr approach to extending to 3rd party apps and devices.
2. Solve the near-term request for an established Flickr account.
3. One additional user.
4. Link via standard Flickr user experience.
5. U-verse TV Parental Controls provide PIN.

- 1. Turn on TV
- 2. Tune to channel 91
- 3. Press OK to launch

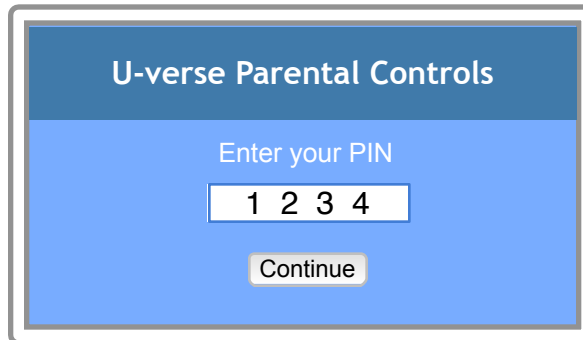

initial launch

I have a default user and the app displays the photos from my att.net account, if any.

The application lets me know I can add an additional Flickr account.

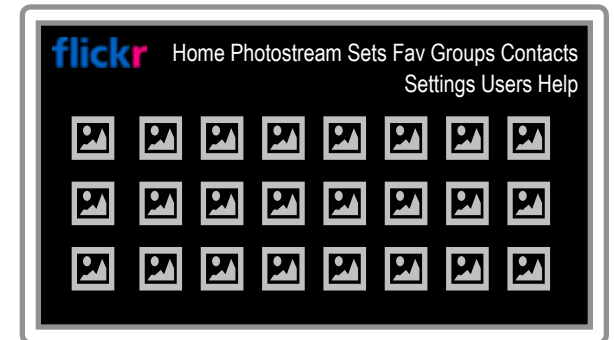

PIN

I may or may not have attached an additional Flickr account.

I have PIN protected the application using U-verse Parental Controls

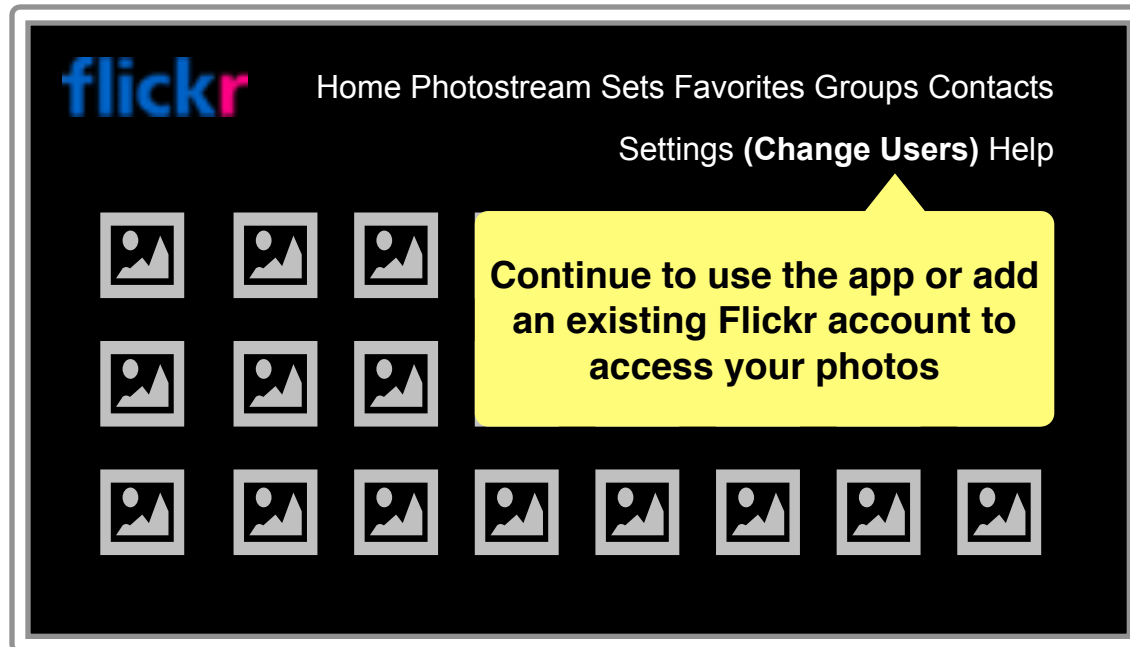

photos

I have a default user and the app displays the photos from my account.

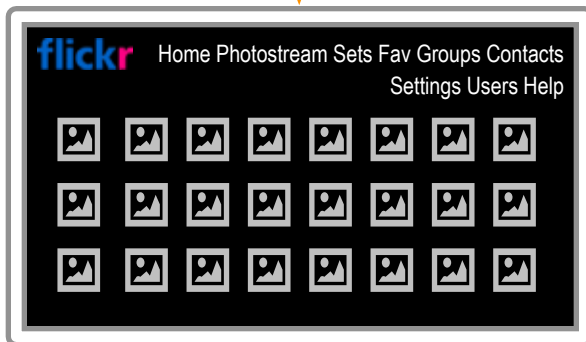

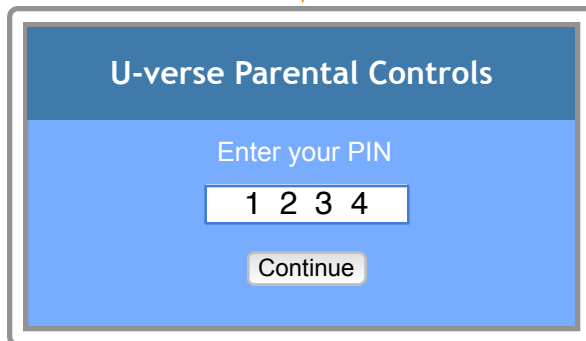

No PIN.

Press OK on Change User navigation button to access the Add User flow

Display feature queue the first time app is accessed to let users know they can optionally add a Flickr account to access their photos.

Info is also in Help.

flickr Back to Home

HELP

Use your U-verse remote control to set AT&T U-verse TV Parental Controls for overall access to the Flickr application.

Follow these easy steps:

1. Select Menu on your AT&T U-verse remote control.
2. Scroll right to Options, then down to Parental Locking.

For additional information see U-verse TV Help section in the Menu

Point users to the U-verse TV PIN

Hi chrissnider

Flickr on U-verse TV wants to link to your Flickr account.

This is a third-party service. If you don't trust it with access to your account, then you should not authorize it.

By authorizing this link, you'll allow Flickr on U-verse TV to:

- ✔ **Access** your Flickr account (including private content)

Flickr on U-verse TV will *not* have permission to:

- ✗ **Upload, Edit, and Replace** photos and videos in your account
- ✗ **Interact** with other members' photos and videos (comment, add notes, favorite)
- ✗ **Delete** photos and videos from your account

What's going on here?
Flickr encourages other developers to build cool tools for you to play with, but you must authorize these third parties to access your account.

Want to know more?
A wealth of information lies within the [Flickr Services](#) page.

OK, I'LL AUTHORIZE IT **NO THANKS**

Your Yahoo! and Flickr passwords will always remain private, but **Flickr on U-verse TV** will have the permissions listed above until you revoke its link to your account. (You can revoke such links at any time in the [Extending Flickr](#) section of your account prefs.)

Refresh "User" screen display this ID as current default user.

Do not display "Make Default" button if the att.net account is the only account.

Current Default User

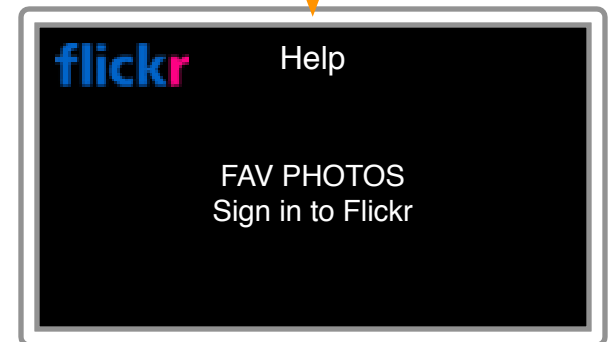

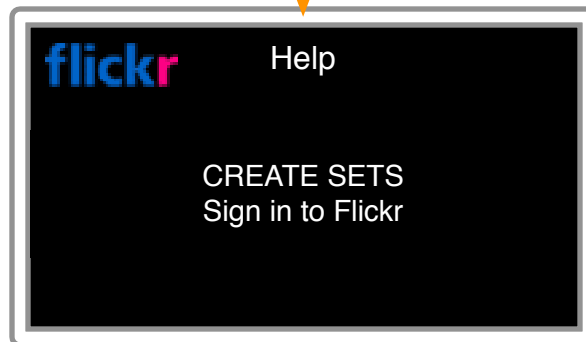

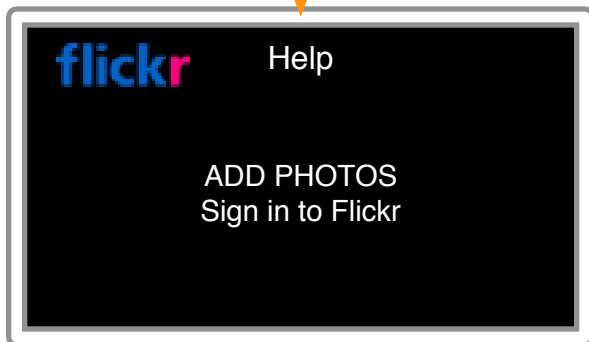

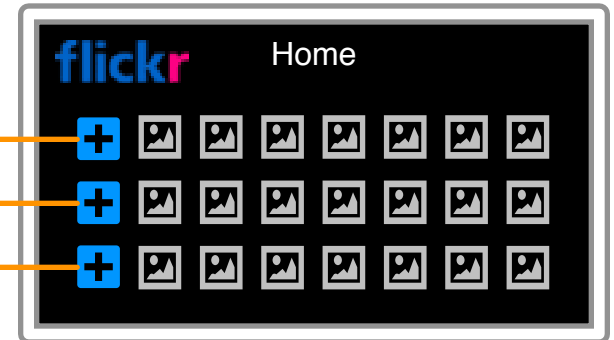

Refresh "User" screen and display att.net account as default

- 1) Yahoo! ID with no photos in Flickr**
 - 2) Yahoo! ID with no Flickr account (less likely)**
- U-verse User tunes to channel 91 with their remote control.
Launches Flickr app on U-verse TV for the first time.

The app displays navigation, placeholder thumbnails, and three buttons deep linking to Help for Add Photos, Create Sets and Fav Photos.

Using the main navigation results in generic message saying the user does not have any of the specific items such as photos, sets, favorites, groups or contacts.

ATT.net User with no photos in Flickr

U-verse User tunes to channel 91 with their remote control. Launches Flickr app on U-verse TV for the first time.

The app displays navigation, placeholder thumbnails, and three buttons deep linking to Help for Add Photos, Create Sets and Fav Photos.

Using the main navigation results in generic message saying the user does not have any of the specific items such as photos, sets, favorites, groups or contacts.
